

Hikaru CHUJO

I look for an internship of mechanical engineer.

I have achieved excellent grades at a university in Japan, which enabled me to receive a scholarship when I studied abroad in France. As an exchange student, I am specializing in mechanical engineering at a Grande École in France, and I am expected to complete my studies there in 2025. I aim to contribute to the company's success by leveraging my engineering knowledge while also striving to improve both personally and professionally.

EDUCATION

Bachelor's degree

Shibaura Institute of Technology/Japan

04/2021 - 03/2026

Tokyo, Japan, GPA(3.7/4.0)

Faculty of Engineering

▫ Mechanical Engineering

Exchange Program as a Master

IPSA/France

02/2024 - 02/2025

Ivry-sur-Seine, France

Aerospace Engineering

▫ Mechanical and Systems Engineering

PERSONAL PROJECTS

Mechanical Engineering Seminar (09/2023 - 01/2024)

▫ As the leader of the group, I created an automatic hot spring egg cooker and successfully developed the equipment within a short timeframe. In addition to overseeing a group of seven people as leader, I was building an automatic control device using Arduino. A video related to this project is available on YouTube at <https://www.youtube.com/watch?v=zjisQrWNTHo&pp=ygUJ5bGx55Sw56CU>.

WORK EXPERIENCE

Tutor in Japan

Japan / Yaruki switch group

06/2021 - 01/2023

Tokyo / Japan

I have experience tutoring multiple high school students in STEM fields at a cram school.

I got him into his first choice university./ Tutor

▫ I was able to facilitate efficient learning for students by ensuring they understood concepts clearly and incorporating visual aids such as diagrams. I believe this experience is valuable for effectively conveying necessary information and ensuring understanding when communicating with others.

Restaurant Operations in France

Paris / Jinchan Shokudo

05/2024 - Present

Paris

Achievements/Tasks

▫ I plan to work for a few weeks. While I primarily use English at school, I recognize the importance of being bilingual in a professional setting. Therefore, I have decided to dedicate some time outside of school to both work and study French, as I understand that proficiency in both English and French will be beneficial for my role at the company.

CERTIFICATES

Statistics Proficiency Test Grade 2 (03/2023)

I have a certificate demonstrating proficiency in statistics at the university graduate level.

TOEIC785 (01/2024)

This will be the grade obtained in 2023. The language skills are further improved as the courses are taken in English at a French university.
